

Specifications:

Temperature measurement range:-50 Celsius- 110 Celsius

Temperature 0.1,other paragraph 1 Celsius

Accuracy:0.1 Celsius

Return difference accuracy:0.1 Celsius

Refresh rate:0.5s

High temperature protection:0-110 Celsius

The input voltage:DC12V

Measurement input:NTC (10K 0.5%) waterproof type sensor

Output:10 a relay all the way

Environmental requirements:-10 Celsius ,-60 Celsius humidity 20%-85%

Size:48mm(length) x 29mm(width) x 32mm

Hole size:46 x 26.5mm

Package includes:

1 x Temperature Controller

1 x Temperature Sensor
